

Dear Kamp Kool Families,

The global status of the Coronavirus is changing daily, and Kamp Kool is continuously listening to guidance from local, state, and federal agencies to respond appropriately. Considering the ongoing attention given to the virus, we are writing this letter to assure our Kampers, families, and staff members remains our top priority. Every summer, we work hard to keep our community healthy and safe to continue to share with kampers an amazing summer experience and wonderful memories.

As of right now, knowing the situation is fluid, **Kamp Kool will go on as planned starting June 15th from 8:15 am to 2:30 pm Monday-Friday. Spaces will be limited.**

That said, we will continue to keep an eye on updates and directives from state and federal authorities, including the CDC and other health leaders and will adjust if needed.

In order to continue to keep our community safe, our housekeeping team will always continue their thorough cleaning process to maintain clean facilities. We will continue to maintain hand sanitizer stations around Kamp to ensure patrons can conveniently and frequently access them. We have added public health reminders in all our common areas and will continue to provide training to staff and kampers about proper sanitization. All cleaners being used come from the CDC list of approved products that work effectively against the virus.

We understand while much of camp will be the same as in years past, there is much that will alter in order to conform to a safer environment. For example, there will be no field trips, special events and guest speakers. This will limit our Kamp's exposure to other large group gatherings and the general public. Adding different activities instead of sports for choices, and curriculum that focuses on our kids mental and physical health will take place. We understand that guidelines are fluid and have the potential to be updated throughout the summer and the foreseeable future. Currently Staff, in coordination with leaders are preparing for the following protocols for Kamp Kool. Protocols will be updated as necessity dictates. Currently they include, but are not limited to the following:

- The increased disinfection of our camp facilities and regular sanitation of surfaces and high use areas
- Utilizing current support staff to help enforce and support cleaning, sanitizing, and caring for the overall health of Kamp
- Curbside drop off and pick up limiting the entering of Kamp to just staff, kampers, and authorized personnel
- Daily rapid temperature checks upon entering Kamp for all staff and kampers
- Kamp will be limited to onsite activities only. Staff will wear mandatory mask and kampers and families will also need masks in our building.

We will update new packets soon on the website. If you already sent in registration form, you do not have to fill out a new one. We are currently working on end date for Kamp Kool.

For 44 summers, we have been faced with different obstacles and have always gone above and beyond to meet the challenges set before us. Our goal is and has always been to maintain the health and safety of our kampers, families, and staff to make sure we are creating lifelong memories. We plan to continue these traditions. We look forward to welcoming you and your kampers(s) for our 44rd summer.

Please, if you have any questions or concerns, do not hesitate to reach out to us.

We Are Many, We Are One
